

Edie Lutz' Be Present S.C. Essay

Attending school every day is important for everyone. We all need to learn. Also most kids want to make friends at school, and school is a great place to meet friends. School is always fun, especially since we have Mr. Conyers as a principal. He makes coming to school lots of fun. I especially enjoy when Mr. Conyers dresses in costumes for special holidays and events. Schools also need students to stay in business.

When school is not in session, I mostly miss my friends. They are important to me because they make my day better. I especially enjoy talking with my friends at lunch and playing with my friends during recess. During school breaks and during the summer, I also miss my teachers because they help me learn and learning is enjoyable. Everyone needs a good education so they can become adults and have jobs.

Art is my favorite subject. It is both creative and fun. We get to work with many different mediums and learn different art techniques such as working with acrylic paint, POSCA pens, and colored pencils. We also learn about famous artists and the history related to the time when the artists painted. I also like art because it is somewhat flexible and we can talk with our friends.

If I no longer attended Buist Academy, I believe my friends would miss me and feel sad.
